

WE ARE **PIONEERS**

In manufacturing,
global trading, converting &
recycling domain with a strong
presence across the globe

WHAT WE DO

SETTING BENCHMARKS THROUGH STRATEGIC EXPERTISE

MANUFACTURERS

GLOBAL TRADERS

CONVERTERS

KNAM Marketing brings the world of paper to your doorstep, literally. With over a decade of global experience under our belt, we are geared to provide prompt and efficient service to customers in the supply of finished, recycled and waste paper.

What makes us unique in the cluttered and competitive paper value-chain is our presence in over 20 countries, supported by an agile and experienced team of professionals that brings with it a deep understanding of the paper industry. Club this with our client-centric approach and you have a world-class business that caters to your exact needs – promptly and efficiently.

Every successful enterprise is built brick-by-brick on support systems that eventually become pillars of the organization. In the case of KNAM Marketing it is Mr Amit Goel under whose guidance and sharp business acumen, the company has become a global enterprise. Today KNAM export in approximately 40,000 tons of paper per month!

The KNAM business is broadly categorized under two divisions – Finished Paper and Recycled Paper. Safeguarding the environment is now a major focus area which is why recycled paper business is growing at a phenomenal clip.

DUPLEX BOARD (HWC & LWC)

- Grey Back (180 – 550 gsm)
- White Back (230 – 550 gsm)
- Uncoated (180 – 500 gsm)
- Duplex Kraft Back

MG PAPER / SANDWICH WRAPPING PAPER

- 17 Gsm and above (Bleached, Unbleached & Coloured) (White, Coloured and Brown)
- Both Virgin and Recycled

MG TISSUE

- Both Virgin and Recycled (17-80 gsm)

KRAFT PAPER

- Fluting (50-200 gsm)
- Test Liner (70 - 250 gsm)
- Kraft Paper (18+ gsm upto 40 BF)
- Kraft Board (upto 400 Gsm)
- Core Board (150+ GSM Upto 800 Plybond)
- White Top Kraft Liner (180-550 gsm)
- Virgin Kraft Liner (180-350 gsm)
- E-Flute

FOLDING BOX BOARD

ART PAPER

WRITING PRINTING

- Woodfree
- Copier & Bond
- Newsprint

FACIAL & SOFT TISSUE

PACKAGING AND LAMINATION PAPER

- Food Bags
- Carry Bags (upto 40 BF)
- Bleached Kraft (MG & MF)
- Ribbed Kraft
- MG Kraft

FINISHED PAPER

KNAM has built a robust supply chain comprising paper mills within India and overseas, which places the company in an enviable position of supplying all grades and qualities of finished paper in reel and sheet form, customized to consumer needs. The finished paper is exported to more than 20 countries.

WASTE PAPER

The company has established a sustainable network of suppliers worldwide for purchase of all grades of waste paper, which is in turn supplied to paper mills for purposes of recycling.

THE PRODUCTS WE SPECIALISE

FLUTING PAPER | TEST LINER PAPER (50-200 GSM) | (70 – 250 GSM)

Fluting paper is sized and then used to make corrugated board, which is then converted into boxes. The corrugated board consists of an outer liner paper and an inner liner paper, with fluting paper in the middle.

Testliner is used in corrugated boards as the top and bottom layers. Testliner is made from 100% recycled fibres and coloured agents give it a stable optical colour. Addition of starch guarantees the strength of Testliner and a surface treatment, involving the addition of synthetic adhesives optimizing the printability of paper.

Application:

Fluting Paper:- Food Packaging | Packaging for Consumer Durables | Corrugated Cardboard Tray Packaging

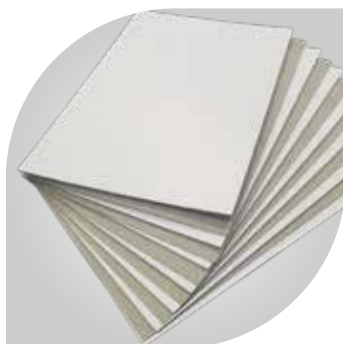

COREBOARD (Reels, Slitted) (150+ GSM Upto 800 Plybond)

Core is another type of kraft paper which is broadly used for making high quality cores. It has high strength and works with machines running at high speed to make cores for toilet paper, films & foils etc. It is made from 100% recycled fibre and offered in Plybond range starting from 200 to 300.

Application:

Cores for toilet paper, films & foils etc.

DUPLEX GREY BACK AND WHITE BACK (180 – 550 GSM) (Reels, Sheets on Pallet)

Duplex board (also called as white corrugated boxes) mainly consists of two layers with smooth surface and widely used for packaging purposes. We offer all types of Duplex board viz. HWC (High Weight Coating) and LWC (Light Weight Coating) with Grey back. It is a strong board and good for printing on and widely used for food packaging.

Industries: Packaging and printing Suitable for high quality embossing, foil stamping.

Application:

Pharmaceuticals | Liquor cartons | Garment boxes | Sweet boxes | Match boxes

BLEACHED KRAFT BOTH MG AND MF

(Starting from 40 GSM)

We offer Bleached kraft paper for carry bags (shopping bags, SOS pouches) starting from 40 gsm. We can do 100% virgin Bleached kraft paper which is used to produce bags for shopping applications, food wrapping and packaging. Our paper is FDA approved and FSC certified.

Application:

Food Packaging | Packaging for Consumer Durables | Shopping Bag

KRAFT PAPER BOTH MG AND MF

(18+ GSM upto 40 BF)

| KRAFT BOARD

| (Upto 400 GSM)

We offer kraft paper for carry bags (shopping bags and food containers) starting from 50 gsm and above with upto 40 BF. We can do 100% virgin kraft paper which is used to produce bags for shopping applications, food wrapping and packaging. Our paper is US FDA approved and FSC certified.

Application:

Food Packaging | Packaging for Consumer Durables | Shopping Bag
Corrugated Cardboard Tray Packaging | Food Containers

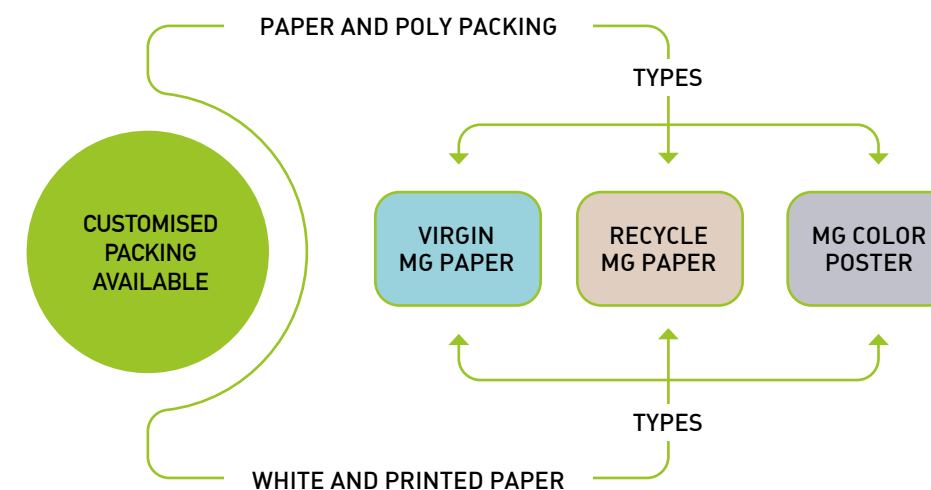

MG POSTER | SANDWICH WRAPPING PAPER (17 GSM and above)

We supply both virgin and recycled grades of MG poster & tissue with high burst factor. We have both White and Coloured Poster paper available in both reel and sheet form. We also do customized packaging based on customers requirement with branded and white label solution. Ream packing is available in paper and poly printed cover. FDA Approved

Application:

Paper Straws | Fruit Wrapping | Soap Wrappers | Sandwich Wrapping | Paper Pouches

WRITING & PRINTING | NEWSPRINT PAPER | A4 COPIER (50 – 110 GSM) | (40 – 45 GSM) | (70,75,80 GSM)

Writing Printing paper is smooth surface sized paper which is produced from high bright pulp. We have wide range of writing printing grades starting from 50 gsm to 110 gsm having brightness from 80% to 95%. Writing paper is offered both in reels and highly professional automated ream packing.

Wood based paper made from 100% recycled pulp (deinked) having high bulk and good smoothness. It is suitable for high speed printing commonly used for newspaper and advertising material.

Brightness: 58%

Application for Writing-Printing Paper:

Printing Books & Notebooks | High Quality Diaries | Calendars and Writing Pads

Application of Newsprint paper:

Newspaper | Publications and Advertising materials | Packaging

A4/ Photocopy Paper:

Photocopy
